Board of Directors Special Meeting
Saturday, June 3, 2006 - Bismarck, ND**

Meeting Called to Order: President Sonnesyn called the meeting of the Board of Directors to order at 2:23 p.m. Roll was taken by Secretary Bob Gillen of the Board.

Present Board Members:

President:	Peter Sonnesyn
Vice-President:	Greg Evenson
Secretary:	Bob Gillen
NE Director:	Dave Duckworth
NE Director:	Julie Howatt
SE Director:	Bob Gustafson
SE Director:	Jay Marshall
SW Director:	Mike Wald
NW Director:	Bruce Rostad
Jr. Gold Director:	Tim Melander
Girls/Women's Director:	Keith Olson
N.D. Leagues Director:	Scott Schafer

Absent Board Members:

NW Director:	Scott Ellis
SW Director:	Jeff Gustafson
Treasurer:	===OPEN===

12 of the 15 voting board members were present. Discussion on what would constitute a simple majority took place. Motion by Schafer, Seconded by Rostad that a secret ballot be held and 7 votes are needed to pass the motion. If we end up tied at 6 and 6 the motion will die. MSC Vote on the above proposal ended up 8-yes and 3-no with President Sonnesyn not voting.

Motion by Olson, Seconded by B. Gustafson to bring up the tabled item from the Spring Meeting regarding North Dakota Amateur Hockey Association's position on the redistricting proposal that will go before USA Hockey Board of Directors next week at the USA Hockey Annual Congress. Discussion took place.

****Troy Miller was granted the floor from SE District Director Bob Gustafson. Miller began by stating that three different times during the open forum the question of what are the benefits for North Dakota to move into a new district was asked and he did not hear a clear answer any of the three times?**

****John Colter [NDAHA Associate Registrar] stated that for our state we are more long term before we see any immediate benefits. We will be the major player in the new district and should hold a few of the district slots that each district staffs for USA Hockey. If we do have some of our N.D. Staff move into District positions that is a benefit as well it opens up some state spots to get more and new people involved with our organization.**

**North Dakota Amateur Hockey Association
Board of Directors Special Meeting
Saturday, June 3, 2006 - Bismarck, ND**

****Bob Gillen [NDAHA Secretary/N.D. Coach-in-Chief] stated that nothing would change whether we are in a new district or if we stay the way we are. The only major thing that may change is down the road our select kids may have to travel further for development camps/festivals etc. The normal day-to-day operations and league play of NDAHA will not change!**

****Mike Wald [S.W. District Director] stated that would be having these discussions if we had received all of the documents over the past 4-5 years as this has been progressing?**

****Dave Duckworth [N.E. District Director] stated that yes we will be the big dog in the new district, but we will be the little dog of the 12 USA Hockey Districts and what power or lack of power will we have as a district in the eyes of USA Hockey which we have now piggy backing with Minnesota?**

****Bruce Rostad [N.W. District Director] stated that the major benefit is what the people inside of North Dakota do for the kids, coaches, referees and members of NDAHA. We will not survive or grow because of who or who is not in our district. It is up to us here in North Dakota to grow or be stagnant in our future.**

****Keith Olson [NDAHA Women's/Girl's Director] stated if we pass as a state and the USA Board fails the redistricting proposal next week at least we save face as a state by not pulling the plug last minute. Also, if it passes and we have a number of our key personnel move up into District Positions within the district and USA Hockey we should be happy and support those individuals. Also, Olson said he has not heard negative factors not to become a member of the Northern Plains District?**

****Dave Hanneman [Dickinson Hockey Club Director] stated that what ever happens with the vote we have to have a better communication track top to bottom and bottom to top so we are not meeting on items like this that have been on going for five years and we are trying in three weeks to make a major decision with limited information.**

****Brad Bekkedahl [Minnkota Director] stated that we have beaten the age change issue to death and that for those who are all worried if we leave Minnesota then USA Hockey will force our new district to all go to the calendar year and this would affect the Eastern N.D. hockey communities! That will not happen unless USA Hockey mandates all districts to do this in which Minnesota would have to do this as well so we would want to change to stay in line with them but for now it is an affiliate choice and not a whole district choice. We follow the festival and development camp age guidelines in the spring so we are in compliance for USA Hockey functions now.**

Bruce Rostad called for the question.

**North Dakota Amateur Hockey Association

**North Dakota Amateur Hockey Association
2006 Spring Board of Directors Meeting
Sunday, May 7th -- Williston, N.D.**

OLD BUSINESS

A. New USA Hockey District

Brad and Bruce Bekkedahl both wanted to revisit the information on the new district and wanted to say that they were both very surprised at the vote results from yesterday's community meeting. Brad made a note that he did not realize that so many of our affiliates were against this and/or did not have information as they stated? He said that we will look very bad in the eyes of USA Hockey and with the other states affected if we back out now right before the USA Hockey Annual Congress. Bruce Bekkedahl wanted to say again that yesterday he went over the advantages for Montana Hockey and maybe didn't talk about North Dakota Hockey advantages enough? Brad Bekkedahl was under the impression that our state was in favor of this move and was caught by surprise yesterday to the overwhelming lack of support to move on with the new district. Dave Duckworth stated that this issue is not a political issue but in the NE District at their district meeting earlier in the week all community reps felt even stronger to vote no. Why? All of our discussions on this new district are centered on Select Hockey which is 200 kids of our 4,000 players in North Dakota. Nothing is ever stated on how this move will help the other 3,800 players or communities in our state? If we want this to pass we need to have out to the communities on how this move will benefit the communities besides selects. Keith Olson from Crosby said that yesterday was the first time they heard a lot of the information brought out and thought that the lack of information may be the reason for the no votes. Brad Bekkedahl said the message he heard yesterday was to protect the select program especially from the S.E. District where they said they do not want to travel here and do not want to pay more for selects. Brad mentioned that he was gone to Iraq for most of the year and is not sure what Jack did or did not do while he was gone. He stated that four years ago we met in Rapid City, S.D. and the contingent of North Dakota delegates that went were in full support after we left Rapid City to pursue this move. Brad Bekkedahl said he put his whole life into this effort for North Dakota for the past three years and no matter who screwed this process up he said he feels a little stabbed in the back at this moment. He will look very bad at the June Congress if North Dakota pulls out at this late stage we will lose stature at USA Hockey. Bekkedahl said he had never heard from our state that they did not have the information or were not in favor of this new district. This is a one time opportunity for our state and we need to make a very intelligent decision and understand the repercussions this may impose our state. Pete Sonnesyn said maybe we should table this and see what happens in Colorado. Bob Gustafson said he found it hard to believe that Brad B. didn't feel the concerns earlier and Brad said he did yesterday? Bob Gustafson said he found it hard to believe he didn't hear any concerns over a year ago. Brad B. said he was gone during the last two state meetings but never once did any one call with questions or concerns and he said he relies on our community people to come to him if they have issues and this did not happen. Duckworth said our states problem is that 4-5 people get information and everyone else is left in the dark. Duckworth said as a district director he got two e-mails from our president over the past year and if he isn't getting e-mails how are the people in his district to be informed if he is not receiving the information from the state and he is a board member? Sonnesyn asked the board what they wanted to do? Splichal asked Brad what would happen at the Annual Congress if we tabled this today? Brad guessed they would drop it and it would be a done deal. This will not go forward if North Dakota is not on board. Sonnesyn said I do not think we can override the communities with the vote being so lopsided. Sonnesyn said lack of information is the big reason for the no vote and we need to get information out on the benefits besides the select program. Bob Gustafson asked for a ten-minute recess to go out and talk with the other board members on what was just heard. Vice President Sonnesyn gave the board a ten-minute recess.

**North Dakota Amateur Hockey Association
2006 Spring Board of Directors Meeting
Sunday, May 7th -- Williston, N.D.**

Board reconvened and resumed discussion. Sonnesyn asked to continue the discussion. Evenson stated that he heard yesterday's comments and has talked to people in our state that he respects and feel that this is a very important issue. Evenson said what he would like is to have one state wide meeting in Carrington in the next few weeks and have a chance to get all of the proper documents out to the communities for them to dissect at their board meetings and then invite all communities to a state wide informational meeting and then the board will vote at this meeting after the discussions and presentations have been made and heard. This will happen before the annual congress and that way we at least made an attempt to get the correct information out and at the same time hold a public forum to dispel any rumors or false information. Gillen said that power point presentation is very good and we have four years of documents out there and we invite everyone to the state meeting and if people do not show up then they can't say they didn't have a say or couldn't ask the questions they have. Schafer said we need to get the information out right away so the communities can meet with their local boards before this statewide meeting. Jeff G. said when people approach him about the new district he doesn't have anything to tell them as far as benefits and some say to him what is wrong with the district we are in? He said he would like to know what are the benefits for North Dakota and what we should tell people if they ask? Brad B. said for the grass roots player they would not see any changes good or bad if we go with this new district. Minnesota would like to be their own district as a prestige thing more so than any thing else as they have stated they like North and South Dakota and the Minnkota District as a whole. Bob Gustafson asked what Idaho thinks of this and they would be all by themselves if this new district happens. Bruce Bekkedahl said that their leadership does not want to leave the Rocky Mountain District and that they feel they would be better off going to the Pacific District if we do redistrict. Bruce said they have always been invited to the meetings but have never attended. Nybo recommends that we table this until June 3rd, 2006 and host a state new district meeting in Bismarck. Information will go out in the next week to all communities so they have a few weeks to look over the information before the statewide meeting. Sonnesyn asked for a show of hands to table this item until June 3rd and a statewide meeting be held June 3rd in Bismarck. Unanimous to table until June 3rd and information will go out this week to all communities. Duckworth asked if we could get in writing that the age change will not change if we move to a new district. Bekkedahl said he will do what he can but if USA Hockey wants to change they can change. Gillen asked that the information of North and South Dakota being moved to the Rocky Mountain District if and when Minnesota is granted to be their own district if we decline to go to a new district now. That information may be big as far as decisions go? Splichal said he was on the fence before this meeting but after what he has heard he would vote yes and thinks this is a huge opportunity to pass up on. Information will go out this week and a statewide meeting will be held in Bismarck on Saturday, June 3rd at a time and location to se sent out in the next week.

**North Dakota Amateur Hockey Association
2006 Spring Board of Directors Meeting
Sunday, May 7th -- Williston, N.D.**

O. R & Rs, Section II, Article IV: Tournaments, C 3 & 4 [Splichal]

Tabled till Fall Meeting! Amend so that run with 19u league with everybody 13 and up play in league during year and split east and west and play home and home. Comes state tourney time 14u tourney and every one else would be in the upper league and tourney seeding is on how you finished in the league. Gillen clarified that it was amended to read..”take out round trip” and add in “one way.” Splichal wanted to amend to have this worded so it is straight across the board to include all NDAHA travel and not just the Referees. Duckworth said to word it as...all mileage rates for NDAHA. Motion on amendment by Splichal, Seconded by Nybo. MSC.

U. R & Rs, Section II, Article IV: Tournaments, K Compensation [Gillen]

Gillen withdrew item yesterday. B. Gustafson wanted to have it brought back. Nybo said the per diem part for \$20.00 for out-of-town is fine but for in town officials they are at the rinks all day and usually eat at the concession stand and we should give them \$10.00 per day for in town officials twenty miles or closer. Bob Gustafson said that we should include this for our board members and state officials so it is the same.

V. By-Laws, Article VI: Directors, Board of Directors, 1a & b [B. Gustafson]

Community Vote was to pass. Motion by B. Gustafson to pass, Seconded by Evenson. Discussion. B. Gustafson said he forgot to split the section directors to odd/even years but it is probably too late now. Motion passed [8 to 1] with the lone no vote by Dave Duckworth.

W. By-Laws, Article XII: Amendments [Colter/Gillen]

Tabled till fall when Colter can be here to explain his thoughts on the proposal. Ellis said have a community rep meeting and we get their input and then Sunday we waste an entire day because we talk over the same items but do nothing different than what we discussed and voted on yesterday. Colter is correct in theory, as the Community Reps should have control over By-Laws and the Board should have control over the day-to-day rules and regulations and should have control to change when needed. Ellis said it is good to get the community reps input but we need to be able to have the board the ability to make sound and informed decisions without having the communities hold it against us. Duckworth said the community reps should go to the District meeting and the two-district directors vote on how the district wants them to vote. That is as far as it should go with the community reps and if they do not like how their district directors vote they can elect new directors. If you have an issue and it is split at the district level then they can come to the board meeting and stress their points and see if they can convince enough voting directors to vote in their favor if their district directors would be voting against them.

*****Splichal said we need to have a committee to look at our web site. Sonnesyn said he would work with Gary on this issue.**

*****Bob Gustafson said he would like to research the idea of moving our annual meeting to the second Saturday in September and this would give us a final financial report to work off of and we could start our meeting at 10:00 am and not one hour after that meeting we could handle our board meeting. We can look over if this is feasible.**
